

ROMAN OFFICER'S PARAZONIUM

We complete the quality performance needed of our senior officers project :Sword for the chief commander Emperor,LEGATUS and PREFECTUS and the implementation of our project "ROMAN OFFICER'S PARAZONIUM" .

This is our Imago of imp Claudius destined for our PARAZONIUM. As we are inspired by "The Sword of Tiberius" Dated: around 15 A.D. from Mainz, Germany.

This PARAZONIUM sword was made from us to be use from our senior officers during our club historical reconstructions partisipation . We do not claim that this is an authentic replica of a PARAZONIUM sword.Taking into account that the swords of this type are only a few in the museum collections.

This PARAZONIUM was made free of charge for the needs of our club.

Part of our officers' club equipment.
