

## Hellenic, Thracian and Scythian small items in our club

Greek and Scythian arrows heads.

The variety of these bronze arrows is very large (be archaeological finds). Diameter of the sleeve for the wooden part is: the largest model 5 mm, there models wit 4 mm and 3mm.Or with a nail for piling in the wooden part (without sleeve).

Part of my wax work.

Leon-Buttons for Greek armor fastening elements.

Our rings with gorgeous image which depicts mythological story of Leda and the Swan!

One of them presents Cameo standing out image

Second one Gem engraving (ring seal). The original is from Thessaly, 2nd c. BC. Benaki Museum, Athens.

Our New Greek finger ring with the leer of the lion! This is a rare image of a lion with Corinthian helmet.

## Imprint

This is the original of which we are inspired. Our replica is different from the original and is not an exact copy.

Venus and Eros, ring- Hellenistic period Kunst Historisches Museum Wien.  
<https://www.pinterest.com/pin/114630752989312290/>

This lovely Hellenistic ring from Kunst Historisches Museum Wien, has long excited us as beauty and grace. Displaying Venus and Eros. The original is made of gold. Our modest replica of brass. Designed for historical reconstruction.

Our waxwork on the subject:

I made an impression mark to see how it would look like a footprint on the wax.

Our ritual objects.
